

Vigilis Vole Guards

Technical Data Sheet & Product Specifications

Vigilis Vole Guards are 100% soil-biodegradable, rigid, single-wall, cylindrical guards designed with a wrapping function and to protect the roots of sapling from voles and rodents. Designed to last for a minimum of 3 years. They provide crucial protection to saplings for 3+ years and degrade naturally in normal soil temperatures.

Construction & Materials

MATERIAL COMPOSITION

Made with a patented, soil-biodegradable material designed to degrade naturally in normal soil temperatures ($\cong 20^{\circ}\text{C}$)

DESIGN CONSTRUCTION

Single wall structure to make inserting into soil easier. Wrap design to make installation and removal quick.

SAFETY FEATURES

Wrap design allows the shelter to expand as the hedge grows, avoiding damage to hedge.

COLOUR & TRANSPARENCY

Muted brown colour to naturally blend into the environment when installed, offering a discrete planting solution.

Product Specifications

SKU	Height ($\pm 20\text{mm}$)	Diameter	Weight ($\pm 10\text{g}$)	Protection Against
200871	0.20m / 0.6ft	38mm	10g	Voies & Rodents
200222	0.25m / 0.8ft	38mm	12g	Voies & Rodents

Vigilis Vole Guards

Technical Data Sheet & Product Specifications

Product Description

Vigilis Bio Vole Guards are **100% soil-biodegradable** voleguards **designed to protect the root systems and stem bases** of young trees and plants during early establishment, then degrade naturally in normal soil conditions – with no need for retrieval after years in the ground.

Available in two heights, 0.20m and 0.25m, for ground-level protection against vole damage.

Vigilis Bio Vole Guards are the **ideal solution for sites where collection after establishment is difficult or impractical**, and for grant-funded schemes with plastic-free conditions – and can be paired with Vigilis Bio tree shelters and mesh guards to create a fully plastic-free planting system from ground level upwards.

Installation, Maintenance & Packaging

Packaging: Nested in 3's and boxed with a waterproof wrapping for efficient transport and handling.

Lifespan: Functional life of 3+ years followed by 3+ years for biodegradation.*

**All stated timeframes are approximate and may vary with environmental conditions; figures are provided for guidance only and without warranty or liability.*

Storage Requirements

Store away from direct sunlight (undercover) in dry conditions before use.

Store upright and do not place heavy objects on top.
