

## Vigilis Mesh Shelters

### Technical Data Sheet & Product Specifications

Vigilis Mesh Shelters are extruded mesh shelters with selvedge top and bottom to improve strength and rigidity. Vigilis Mesh Shelters provide crucial protection to saplings and increased growing space.

### Construction & Materials

#### MATERIAL COMPOSITION

UV-Stabilised, photodegradable polyethylene with up to 30% recycled material.

#### DESIGN CONSTRUCTION

Extruded mesh shelters with selvedge top and bottom. Produced with a diameter of 130mm for increased space for growth.

#### SAFETY FEATURES

Selvedge top and bottom to improve strength & rigidity and also minimise stem abrasion during growth.

#### COLOUR

Coloured green to blend naturally into the area when installed

### Product Specifications

SKU	Height (±20mm)	Diameter	Hole Size	Weight (±10g)	Protection Against
201229	0.60m	130mm	10 x 10mm	138g	Rabbits
202608	0.75m	130mm	10 x 10mm	172g	Hares
201137	1.20m	130mm	10 x 10mm	276g	Muntjac Deer
201144	1.50m	130mm	10 x 10mm	345g	Fallow Deer
202608	1.80m	130mm	10 x 10mm	414g	Red Deer
